Non-Magnetic Equipment

Also Including Products for:

Stereotactic, Ultrasound and CT Imaging

Breast Imaging *Equipment and Supplies*

MRI Biopsy Tray

Office Hours: Monday thru Friday 7:00 am to 4:30 pm (CST)

TERMS: Our terms are NET 45 DAYS on all new and current accounts. C.O.D. if not current. Payments become due 45 days after the invoice date, if the order is complete or not. Shipments will be held if an account contains invoices over 45 days past due. The account will go on permanent C.O.D. when there is a history of past dues. Third party collection fees and legal fees must be paid in full before an account can be reopened.

FREIGHT: Freight will be prepaid and added to your invoice. Freight charges are part of your invoice and are due accordingly. Freight charges are not discountable.

PROOF OF DELIVERY: We will provide proof of delivery within 30 days of shipment upon request.

CLAIMS FOR DAMAGE OR SHORTAGE: Must be made within 48 hours of receiving. Shipping containers must be kept if shipment is damaged or short.

SHIPMENTS ARRIVING VIA LTL TRUCK (not UPS or Fedex ground): The packages must be opened and inspected at time of delivery for any concealed damage.

PRICES: All prices are subject to change without notice. Prices reflect single unit cost, except where noted.

MINIMUM ORDER: No Order is too small. Excludes tools.

RETURNS: No item will be accepted for return after 30 days from date of purchase. All returns must be labeled with a return authorization number which can be obtained from our customer service department. **Claims for shortage, breakage or any other reason must be made within 48 hours of receipt.** Shipping containers must be kept if shipment is damaged or short. All returns are subject up to a 25% restocking fee. The customer is responsible for all freight charges incurred.

CANCELLATION CHARGES: Orders may be canceled without charge providing your request is received prior to shipment except custom orders. If the merchandise has been shipped there will be up to a 25% restocking fee, plus all freight charges incurred. Please get cancellation confirmation to avoid these charges.

OTHER ORDER INFORMATION: We reserve the right to split shipments. We sell on first come first serve basis. Where available, substitutions will be shipped if the product ordered is not available or discontinued.

WA-1003 ●	Rollator / Walker	\$195.00 ea.

BIOPSY SAFETY

NOT for use in MRI

Mammography Care Cushion, Disposable

CareCushions are used to enhance accuracy and increase patient comfort during mammograms. The non-slip surface increases the amount of breast tissue that can be imaged, while helping to immobilize the breast for a precise image. It easily, yet securely, adheres to the front of the bucky, and can be quickly removed between patients. Women appreciate having a cushioned buffer between the imaging equipment and their breast, making for a warmer and more comfortable mammogram experience.
25 per case.

Model	Description	Price

■ MR Safe ▲ MR Conditional ● Not MR Safe

Are you aware if your current MRI supplies are certified, possibly leaving you open to significant liability? Are you overwhelmed by multiple supplies for minimal procedures?

MRlequip.com proudly introduces the first of its kind non-ferromagnetic MRI certified biopsy tray to include both a scalpel and needle. The first biopsy tray that significantly reduces your fine institution of liability, when used in the prescribed fashion. Please call for MRI certification for future purchases. Thanks to your radiology family, larger production runs have lowered the price to \$399.00 per case, that's just **\$39.90** per tray.

MRI Non-Ferromagnetic "Certified" Biopsy Tray

Featuring a Non-Ferromagnetic Scalpel and Non-Ferromagnetic Needle

SAFETY: MRlequip.com is committed to bring to you the only MRI Non-Ferromagnetic Certified Biopsy Tray. Designed and certified within the guidelines of the new ASTM standards in effect so your facility no longer has to assume the liability for any safety accidents due to items made with ferrous materials.
USAGE FLEXIBILITY WITH LESS WASTE: Based on customer feedback for increased ordering and procedure flexibility you'll note that we packaged the main biopsy components separately as well as in a MRI biopsy tray. Trays can also be used as a MRI localization tray.

UNIQUE DESIGN: MRlequip.com offers the only MRI Non-Ferromagnetic certified disposable scalpel and MRI Non-Ferromagnetic certified needle.

COST EFFECTIVE: This product is a first of its kind. Developed by technologists who perform the procedures. It is cost effective, practical and safe to use. **The trays are completely sterile and disposable.**

MR Conditional to: 3-Tesla

MRI Biopsy Tray is SAFE in the MR environment when used in the prescribed fashion. The trays have a 2 year expiration date.

MRlequip.com proudly introduces a revolutionary patent pending draping system for MRI breast coils.

These drapes will minimize the daily cleaning routine of coils as well as ease the mind of clientele. The drapes provide comfort to patients, while providing protection from contagious diseases such as MRSA. Finally, your staff will be delighted with your decision to simplify clean up between patients, thus achieving a greater throughput.

Organic Unscented Breast Self Exam Bar

We offer these products to educate and encourage monthly breast self examination. While many sources claim that this is not necessary, we all know people who have found cancer themselves by doing the breast self-exam. Per the recommendations, breast exams should be performed prone with lotion, however the organic "Breast Bar's" intent is to remind women to do the exam after their shower. This is a great product for breast center giveaways (Breast Cancer Awareness Month or anytime), for company giveaways, retail gift shops and cancer centers.

BENEFITS: Our Breast Bars are organic and the packaging is biodegradable. The Breast Self-exam cards are water resistant for placement in the shower, providing a reminder to perform a breast exam after your shower!

CUSTOMER ASSURANCE: MRlequip.com Organic soap assures women that our breast bars are made of the safest ingredients. Cancer patients should avoid any soap that contains chemicals. Many products hide the chemicals in ingredient listings under unrecognizable names. MRlequip.com offers only the BEST product ingredients for its "Breast Bar".

ENVIRONMENTALLY GREEN PACKAGING: Our packaging consists of cardboard rustic wraps that encase the soap bars. MRlequip.com uses recyclable and biodegradable/compostable packaging. We use Raffia (leaf fibers of the raffia palm tree) to attach the Breast Bar instructions to the cardboard wraps.

STORAGE: Our Breast Bars have no expiration date when they are stored under normal conditions without extreme variations in humidity or temperature.

Ingredients: *saponified olive oil and goat milk. (* saponified - a conversion of an oil or fat into a soap by combination with an alkali.)

Just 96 cents each First Order!
(sold per case of 300 only)

*Price increases to \$1.05 each after first order. First order has no maximum number of bars

Stereotatic Tissue Acquisition Device

Case of 6

Can be used in X-ray, Ultrasound and **MRI for imaging.**

A stereotactic tissue acquisition device for use at the time of surgery. The surgical specimen is placed ex-vivo in the device and core needle samples are acquired, guided by a radiograph of the tissue in the device. A radiopaque grid assists the operator in obtaining precise location of the tumor within the excised specimen. Location of the tumor may also be accomplished by use of ultrasound. A Sono-Core disc replaces the radiopaque grid disc in the device. This allows the ultrasound head to contact the stabilized tissue locating tumor. Core needle samples are then acquired. Either technique has been shown to significantly facilitate successful tumor tissue acquisition and improve user safety.

The OP-Core device is a specially designed container that fixes the resurrected specimen in precise orientation. The container also can be used for specimen submission to pathology after placement in a sealed bag. The design of the device also allows for effective tumor tissue acquisition without image guidance.

Safety Eyewear - Pink

Construction allows for the eyewear to better fit the facial structure of a woman, and provides a more secure fit on the nose. Petite™ is 12mm slimmer than “standard” sized safety glasses, ensuring a great fit for women with more slender facial profiles. Better fitting eyewear will protect the eyes more effectively.

Breast cancer has impacted everyone in one way or another, and MRlequip.com provides a great venue to promote awareness. Perhaps one more woman in the workplace will get a mammogram because she sees the pink ribbons on all of her co-worker’s glasses. MRlequip.com has partnered with the American Cancer Society, and will be donating a portion of all proceeds to assist in finding a cure for Breast Cancer. Please help support this wonderful cause as we provide a VISION FOR A CAUSE!

Case of 12

Features:

- Feminine styling
 - Smaller vertical size
 - Soft rubber temples
 - Lightweight construction
 - Anti-fog coating
 - Pink tinted lens
 - Pink ribbon on temple
 - Z87+ high impact standard
- Safety glasses come in pink, other colors available upon request, minimum order quantities apply.

Contact customer service at 866-529-3526.

Bouffant Cap, Solid Pink with Ribbon

Comfort, style and durability are all in this bouffant cap. The body of the cap is made from a single piece of high-grade breathable fabric and is cut generously to ensure full coverage and control of hair. The pre-gathered elastic strip in back keeps the cap in place without pulling on your hair and the crescent-shaped forehead band has been constructed to conform to the natural shape of your head. One size fits most.

Model	Description	Price
BI-1000	Bouffant Cap	\$32.00 ea.

NOT for use in MRI Pink Ribbon Stethoscope, Magnetic

Features ultra-sensitive acoustics for use through bandages or clothing with accuracy through up to 10 layers of terry cloth towel! Head manufactured from high impact shatter resistant acrylic resin.

Model	Description	Price
BP-3006	● Stethoscope	\$39.45 ea.

Generation Pink Exam Gloves

The new Generation Pink exam glove uses the patented 3G technology, an advanced polymer formulation that offers outstanding sensitivity with a unique softness and flexibility at a price you'll love. Don't miss this opportunity to show patients, staff and your community that you support breast cancer awareness. 1000 per case, 10 boxes with 100 per box.

PV-1147	▲ Privacy Screen with Casters	\$444.08 ea.

CT SAFETY

Breast Shield

Today, CT Scans play a critical role in the diagnosis and management of most patients with complex thoracic and cardiopulmonary diseases. As the use of CT imaging increases, so does the risk for latent carcinogenic effects of ionizing radiation on radiosensitive tissue, including the female breast. The recently redesigned AttenuRad Breast Shield System consists of a thin (1 mm) piece of bismuth impregnated synthetic rubber covering that mounts firmly on an offset quarter inch foam base. The breast shield system offers up to a 57% reduction of radiation exposure during a CT scan without significant changes in image quality, including artifacts and beam hardening effects. The single-piece AttenuRad CT Breast Shield is designed for multiple uses.

Model	Description	Price
MO-3002-MD	■ Medium Breast Shield	\$87.95 ea.
MO-3002-LG	■ Large Breast Shield	\$87.95 ea.

Adult Breast Shield Covers - Case of 10

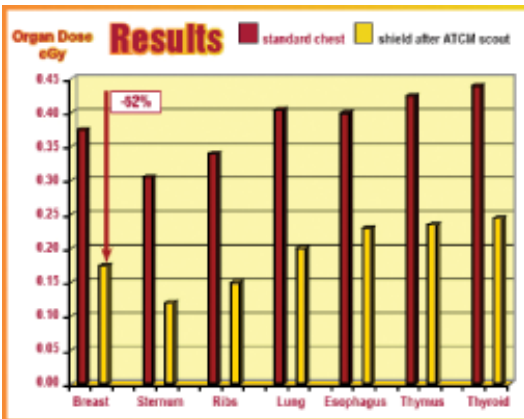

Fits both MO-3002-MD & MO-3002-LG.
 Plastic, Latex Free Covers come in a Package of 10
 Introducing MRlequip.com's new disposable covering for the Adult Breast Shield System. The new plastic covering is a cost-effective alternative to the Adult Breast Shield, reducing the risk of contamination while still providing an artifact and streak-free image.
 2 ml thick

Model	Description	Price
MO-3014	■ Breast Shield Covers	\$20.00 cs.

CT Breast Shield System

Studies have indicated that infants and children are as much as 10 times more susceptible to carcinogenesis from radiation than adults. Breast tissue exposed to radiation from CT procedures involving the chest or abdomen is an area of particular concern for young females. The CT Breast Shield System provides significant in-plane breast shielding (57%) for pediatric MDCT, without qualitative or quantitative changes in the CT image. The use of the system's offset foam base gives the shields additional substance and durability, making them easy to use. The use of the elevating foam also decreases the patient's exposure to scattered radiation.

Model	Description	Price
MO-3010	■ Neonatal, Box of 10	\$119.05 box
MO-3011	■ 1 Year Old, Box of 8	\$119.05 box

MO-3013	■ 10 Year Old, Box of 4	\$119.05 box

Thyroid Shields - Case of 10

Positioned over the Adam's Apple, the AttenuRad CT Thyroid shield is designed to provide maximum protection to the radio sensitive thyroid gland. To ensure tight positioning, a curved notch in the center of the shield is placed around the Adam's Apple and an adhesive backing holds the shield firm as the patient breathes and swallows. The AttenuRad CT Thyroid shield, when used for the soft tissues of the neck, is cut to a thickness of 1 mm allowing for a 60% dose savings to the Thyroid.

Model	Description	Price
MO-3001	■ Thyroid Shield	\$109.90 cs.

Eye Shields - Case of 20

The lens of the eye is sensitive to radiation during routine Cranial CT. Patient undergoing routine CT scans of the head are especially vulnerable to complications. The AttenuRad CT Eye Shield is a single-piece bismuth impregnated synthetic rubber covering designed to provide significant protection. The shield molds over the patients nasal bridge with the shielding portions laying flat over the patient's closed eyes. Adhesive material ensures a tight seal with minimal air gaps. This shield is cut to a thickness of 1 mm, allowing for 50% dose savings to the eye lens. The AttenuRan CT eye shield, which can be used both for adults and pediatrics, is intended to be a single use product because of potential biological contamination.

Model	Description	Price
MO-3000	■ Eye Shield	\$109.90 cs.

CT Biopsy Tray

Case of 10

Tray Contents:

- Mini Scalpel
- 10cc Syringes, L/L (4)
- Plastic Needle Stop
- 25ga x 5/8" Needle
- 22ga x 1 1/2" Needle
- Alcohol Prep Pad
- PVP Swabsticks (3)
- Gauze Sponges, 4 x 4, 12-ply (10)
- Absorbent Towels (2)
- Fenestrated Drape, 24 x 24 with Patch
- Band-aid
- Lidocaine, 1%, 5ml with Insert (2)
- Tray
- 6" Paper Ruler

NOT for use in MRI

Vision Line Relief Tabs, CT Markers

Vision Line™ products offer the perfect combination of tack surfaces and easy-peel corners, keeping the markers correctly positioned with minimal discomfort to the patient upon removal. These specially formulated NON-METALLIC markers are clearly detectable on film, reducing read time. Visionmark™ CT markers are clear and consistent with virtually no scatter. Our patent pending Vision Line™ products are safer for you, your patients and the environment.

The unique design of Vision Relief Tabs™ provide for consistent adhesion in every environment. Tack-free corners and centers are easy to grab and easier on your patients.

Vision Line™ was created to be the ultimate blend of comfort for patients, and accuracy for technologists. The adhesive-free centers allow for pain-free removal from sensitive skin areas.

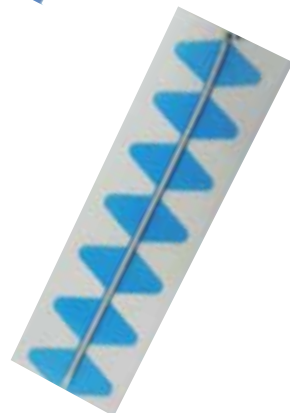

Model	Description	Price

CT Needle Guide

Specifically designed Needle Guides reduce procedure time and increase precision in CT-guided pain injections and biopsies. These flat, self-adhesive markers aid in needle angles and entry site by providing a clear accurate reference point with no spray artifacts. Needle guides are used by neurosurgeons, neuroradiologists and interventional radiologists at leading health institutions around the world. Pattern series of 7 lines creates 8 access windows.

Benefits:

- Flat, disposable markers do not indent tissue
- Clear adhesive backing permits visualization of exact marker placement
- Easy-to-read pattern helps identify accurate needle angle and entry site
- Windows allow needle passage
- Wider first line spacing aids orientation
- Thicker center line facilitates counting
- Flexible to contour the body
- Choice of two sizes provides options for various locations and body types

Model	Description	Price
MA-1028	Small, 3" x 2", 15 grids per box	\$76.85 box
MA-1027	Large, 3" x 4", 15 grids per box	\$76.85 box

STEREOTACTIC DRAPE

MRlequip.com proudly introduces a revolutionary patent pending draping system for Stereotactic Tables.

These drapes will minimize the daily cleaning routine of coils as well as ease the mind of clientele. The drapes provide comfort to patients, while providing protection from contagious diseases such as MRSA. Finally, your staff will be delighted with your decision to simplify clean up between patients, thus achieving a greater throughput.

Accufit Fischer/Siemens Table Drape

BS-1503	Lorad Stage Drape System	\$220.00 cs.

Accufit Lorad One Piece Stage Drape System

20 per Case
 Designed to accommodate the technologist for an easy, quick and cost effective alternative to our BS-1503 Lorad Two Piece Drape System. May be used as a two piece for older systems by tearing the drape at the perforations and attaching on the back of the paddle and the front of the paddle. System also includes the control panel cover.
 CE Certified

Model	Description	Price
BS-1506	Lorad One Piece Stage Drape System	\$220.00 cs.

Stereotactic Needle Biopsy Training Phantom

A tissue equivalent, compressible biopsy training phantom, that won't leak

This phantom closely mimics properties of the human breast. It is an ideal teaching tool and practice medium for mammographic needle biopsy procedures. Model PH-1001 also serves as an excellent quality assurance testing device for stereotactic systems and should be used whenever a new system is installed or repaired to insure accurate needle placement. Each solid mass can be biopsied multiple times. The phantom is constructed from a solid material so it will not leak when punctured.

NOT for use in MRI

Specifications:

Size: 1500 cc
Length: 10 cm
Height: 5 cm

Targets:

Dense Masses
Color: Black
Size: 3-6 mm
Quantity: 11
Position: random

Microcalcifications:

Color: orange on white mass
Size: 0.3 - 0.35 mm
Quantity: 2 clusters
Position: mid-plane on right and left sides

Model	Description	Price
PH-1001	● Stereotactic Needle Biopsy Training Phantom	\$352.80 ea.

Stereotactic Biopsy Tray

Single use breast biopsy tray designed to provide all the tools necessary to perform a stereotactic breast biopsy procedure. Each case includes 10 trays.

Tray Contents:

- | Qty | Description |
|-----|--|
| 1 | 12cc syringe |
| 2 | 6cc syringes |
| 1 | 5cc syringe |
| 1 | Forcep Adson® 1x2 Fine |
| 10 | 4x4 gauze 8 ply |
| 1 | Alcohol prep pad |
| 1 | Triple antibiotic ointment |
| 1 | Chloraprep® 3ml applicator |
| 1 | #11 scalpel SS plastic handle |
| 2 | 6-inch cotton tip applicators |
| 1 | plastic sponge forcep 7.5 inch |
| 2 | 18g 1½-inch needles |
| 1 | 22g 3 ½- inch spinal needle |
| 1 | 25g 1½-inch needle |
| 1 | 23g 1-inch safety needle |
| 1 | Standard band-aid - latex free |
| 2 | Petri-dishes 3-inch diameter x ½ inch high |
| 1 | Package steri-strips ¼ x 1.5 inch, 3 strips/card |
| 2 | Disposable towels 17x19 inches, 2PP White |
| 1 | Set of 31 identifier labels (anesthetic, lidocaine, epinephrine, sterile saline, 4 blanks) |
| 1 | Container Tray 11 inches x 9.5 inches x 2 inches |
| 1 | Sterile indicator |

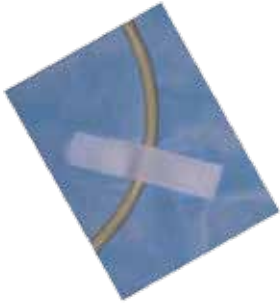

NOT for use in MRI

Model	Description	Price
BS-1504	● Stereotactic Biopsy Tray	\$365.00 cs.

ULTRASOUND PROCEDURES

**Featuring
"New Securing Tabs"
for the transducer
and/or Biopsy tubing**

Product Samples Available Upon Request

Ultrasound Sterile Biopsy Drape

Professional Presentation: A well-designed draping system provides an enhanced professional look and a hygienic presentation to the patient

Usage Flexibility With Less Waste: Say goodbye to the Triangled blue towels, products with undersized access holes and non-absorbent draping!

MRlequip.com provides the "perfect" Ultrasound Biopsy Drape

Unique Design: This draping is designed specifically for Ultrasound biopsy. It offers comfort and protection in a very user-friendly design. Velcro strapping allows flexibility in securing transducer cords and/or biopsy device tubing. We are confident you will be pleased.

Cost Effective: This product is the "Ultimate" invention developed by physicians who perform the procedures, it is cost effective and practical. It eliminates costly procedure set-up and turn-around time

Quick Set-up and Turn Around Time: Quick procedure turn-around time saves you money and time.

Ultrasound Drape Benefits:

1. Absorbent area to contain bodily fluids when performing a biopsy
 2. Large 30" x 36" area for patient coverage/flexibility (can cover face area if patient does not want to watch the procedure)
 3. Drape is blue providing patient privacy (unlike the clear plastic drapes that are sometimes used)
 4. Draping material used provides the patient warmth and is soft to the touch
 5. Sterile drape is quick and easy to place (does not take all the time to triangle blue towels for sterile area)
 6. Draping supplies built in "SecurTabs" to hold Ultrasound transducer cords and or biopsy vacuum cords providing safety for the equipment
 7. Adhesive tape for attachment placement of the draping providing no movement
 8. Large 4" x 5" oval hole to accommodate the transducer and the biopsy needle without obstruction
 9. Competitively priced (most facilities use 2 packages of blue sterile towels utilizing only 3 to form the biopsy area of interest)
- Disposable
25 per case

Model	Description	Price
BS-1505	■ Ultrasound Sterile Biopsy Drape	\$119.75 cs.

Triple Modality Biopsy Training Phantom

For use in **MRI, Ultrasound and X-Ray**. 1 piece disposable.
The Triple-Modality Biopsy Training Phantom is a disposable phantom that was designed to closely mimic the properties of the human breast, making it an extremely useful accessory for training technologists and physicians, as well as for verifying the proper operation of a mammographic biopsy system. With the increasing use of breast biopsy procedures, it is essential that radiology healthcare providers maintain and increase their needle biopsy skills. This training phantom is a must for every mammography facility.

Specifications:

Size: 500 cc
Length: 12 cm
Width: 10 cm
Height: 9 cm
Material: Zerdine® Dense masses 2 to 8 mm in diameter for core biopsy.
Cystic Masses: 3 to 10 mm in diameter for needle aspiration.

Model	Description	Price
PH-1000	Biopsy Training Phantom	\$319.20 ea.

Breast Ultrasound Needle Biopsy Phantom

Accurately mimics the ultrasonic characteristics of tissues found in an average human breast. The size and shape of the phantom simulates that of an average patient in the supine position. A special holding tray facilitates proper hand position during the training procedures. Protected by a membrane, the phantom's flesh-like consistency, (Zerdine®) (1) simulates needle resistance. Each cystic mass may be aspirated once while each solid mass may be biopsied multiple times. Cyst material is stained green and solid masses are black for easy identification.

Size: 600 cc

Specifications:

Length: 15 cm
Width: 12 cm
Height: 7 cm
Material: Zerdine®

Cystic masses, green 8-15mm, qty 6 random
Dense masses, black 6-12mm, qty 6 random

Model	Description	Price
US-1004	Needle Biopsy Phantom	\$240.00 ea.

Breast Elastography Phantom

Accurately mimics the ultrasonic characteristics of tissues found in an average human breast. The size and shape of the phantom simulates that of an average patient in the supine position. A special holding tray facilitates proper hand position during the training procedures. Protected by a membrane, the phantom's flesh-like consistency, (Zerdine®) (1) simulates needle resistance. The phantom contains several solid masses that appear isoechoic to the simulated breast tissue under normal ultrasound, but the lesions are 3 times stiffer than the background so they can be detected on elastograms. Lesions range in size from 2 mm to 10 mm diameter and are randomly positioned throughout the background.

Size: 600 cc

Specifications:

Length: 15 cm
Width: 12 cm
Height: 7 cm
Material: Zerdine®

Model	Description	Price
US-1005	Breast Elastography Phantom	\$340.00 ea.

Ultra/Phonic BP Breast Phantom

Reusable Ultrasound guided biopsy training device
The phantom that heals itself, reusable, self-healing solid gel breast phantom. Use the BP for hand/eye coordination practice with ultrasound guided needle biopsy. Provides simulated clinical experience for breast biopsies with randomly embedded target structures of various size and density. Palpable targets, acoustically accurate.
Comes with a sample of the Ultra/Phonic Free, high viscosity (ultrasound) conductivity gel, sku # US-1001

Model	Description	Price
US-1003	Reusable Biopsy Training Phantom	\$218.47 ea.

Ultra/Phonic Free, High Viscosity Ultrasound Gel

Biodegradable ultrasound conductivity gel. The only environmentally responsible ultrasound gel. Free of added color, perfume, propylene glycol, glycerin, sodium, harsh preservatives and skin irritants. No clarifiers or bleach. Does nothing except conduct ultrasound. One application is all that's needed for this hypoallergenic, perspiration-stable gel. Stays in place. No dripping or leaking. Use less gel. Fewer additives saves our environment.

Its more than clear...it's FREE of:

- Harsh preservative
- Propylene glycol
- Skin sensitizers
- Glycerin
- Colorants
- Irritants
- Perfumes
- Sodium

12 per case

Model	Description	Price
US-1001	Ultrasound Conductivity Gel	\$41.20 cs.

Sterile Aquasonic 100 Ultrasound Gel

20g overwrapped, sterilized foil pouches, 48 per box

Features:

- Overwrapped, sterilized foil pouches
- Acoustically correct for the broad range of frequencies used in medical ultrasound
- Non-irritating, hypoallergenic
- Completely aqueous, will not stain clothing or damage equipment
- Not a sporicide

NOT for use in MRI

Model	Description	Price
US-1000	● Ultrasound Gel	\$72.95 box

Ultra Warmer - Compact Gel Warmer for Ultrasound

Your Ultra Warmer uses solid state technology. Only 8 watts required for high, 5 watts required for low. Warms only the gel you are about to use. Holds the bottle or tube conveniently between applications for immediate use.

Three Function LED and Power Switch:

Red (up) - High for fast initial gel warming and high volume gel use only - Caution: Never leave Ultra Warmer on high unattended for prolonged periods as gel may become too warm for direct patient application.

Frost White (center) - Off

Green (down) - Low for occasional use and overnight warming

Power Pack Safe 12 volt DC output

Comes with samples of the Ultra Phonic Free Gel (sku # US-1001) and Ultra Phonic gel

T-Spray II Disinfectant Cleaner for Ultrasound Probes

T-SPRAY II Disinfectant Cleanser for Ultrasound and Mammography is the essential medical accessory. T-SPRAY II cleans and disinfects all ultrasound probes, transducers, mammography compression plates and cassettes after each use and between patients. T-SPRAY II has a neutral pH and contains no alcohol, phenol, glutaraldehyde or ketones. It is safe for equipment and is an effective bactericide and virucide killing HIV-1. The active ingredient is conveniently user activated by adding tap water to the fill line indicated on the bottle. Easy to use - no scrubbing or soaking. No harsh solvents, alcohol, phenol or glutaraldehyde. Neutral Ph - safe for all plastics. User-activated for maximum efficiency - just add water, Stable, pleasant fragrance.

AccuFit Brachy Bandage

The "AccuFit™" Brachytherapy Bandage is designed to protect and stabilize Brachytherapy devices such as SAVI®, Contura®, MammoSite® and Axxent®. This bandage provides patient security and device stabilization during the 5 day treatments. This device is designed for single use.

Features:

PROFESSIONAL PRESENTATION: A specially designed brachytherapy stabilization system provides an enhanced professional look and a hygienic presentation to the patient. A fitted bandage gives a patient more confidence than the present application using absorbent gauze pieces cut and taped around the device.

STABILIZATION: This bandage is designed to specifically stabilize the external catheters that exit the breast brachytherapy device. Stabilization is imperative to reduce excessive imaging presently necessary to evaluate if the device stays in place between radiation treatments.

UNIQUE PATENT PENDING DESIGN: When used as a complete system our components provide protection, device stabilization and a very user-friendly application. We are confident you will be pleased.

EASE OF USE: This product is designed for ease of use by the patient and the medical staff. Where the brachytherapy device is located can increase difficulty for the patient to change the present protective products and may result in movement of the brachytherapy device. This product provides complete protection for the patient and medical staff.

PATIENT COMFORT: Soft, durable and protective constructions of fabrics are designed specifically to provide patients comfort.

Kit Contains:

- 2 Sterile 4 x 4 Drain Sponge
- 1 Contoured Sponge
- 1 "AccuFit" Brachy Bandage

Model	Description	Price
BS-1507	Brachy Bandage	\$4.50 set

Traditional Breast Binder - Floral Pink

Our Traditional Breast Binders are machine washable, durable and attractive compression garments that help reduce bruising, swelling and the incidences of hematomas following invasive breast / chest procedures. Our binders are easy to apply, comfortable to wear and more appealing to patients than Ace Wraps or other available post-op compression dressings. This inexpensive and easy to use dressing is a versatile and effective means to help Comfort Your Patients following invasive breast / chest procedures. Sizes are determined by measuring the largest area of the bust / chest.

Remain dignified and comfortable during outpatient medical treatments, medical exams, physical therapy and post-surgical home recovery with these stylish and functional Healing Threads Recovery Tops. They are also perfect to wear during Post-Mastectomy recovery.

Easy to use - there are no buttons, zippers or snaps. Hidden "hook and loop" pull down access panels on each side of the top and again down the middle, allow for easy access for porta-caths, medical exams and medical treatments without the need to disrobe. Large interior pockets provide a discrete place for drainage bags, monitors, pumps, etc. keeping your medical apparatus private from guests and visitors. And the sleeves can be rolled up and secured with the attached ribbon, providing easy access to your arms.

Made from soft, supple, lightweight and skin-sensitive micro-fiber fabric for comfort, it is stain-resistant and is washable and dryable in your home machine.

A more stylish, comfortable, and practical alternative to wearing a hospital gown, the tailored top allows you to dress and prepare for treatments in the comfort of your own home and then go to your medical appointments or treatments without having to change. Ideal for Post-Mastectomy Recovery to discretely hold post-surgical Jackson Pratt drains.

Perfect to wear:

- During post-surgical recovery at home
- For any type of upper body rehabilitation or procedure
- For upper body physical therapy sessions
- To outpatient medical appts, treatments, and exams
- Nursing moms
- To outpatient radiation, chemotherapy, brachey therapy or dialysis sessions

"I recently ordered your Healing Threads Microfiber Elegant Recovery Top in purple. I wanted to write and thank you for the exceptional customer service I received from MRlequip.com. I was surprised and delighted when my call was answered on the first ring by Brandi and not an IVR System! My sister received her package on time (Brandi asked the date of the surgery to ensure the gift was received before my sister's hospital stay) and loved the Recovery Top! The top is comfortable and stylish: the color is very becoming. I know it is making my sister's convalescence a little easier."
Thank you, R Powers

Healing Threads Elegant Recovery Top

Exquisitely tailored for a sophisticated look, the high Mandarin collar and kimono sleeves make the Elegant attractive enough to wear on the street. The length falls below the hip so the Elegant can be worn as a mid-length top or bed jacket. Full-coverage style with opaque fabric for modesty. Feminine tailoring, front frog closure detailing, and beautiful colors for a classic look. Two side pockets accessible from the exterior provide places to put tissues, worry beads, etc. Lightweight and stain-resistant; Made with StainSmart fabric. Washable and dryable in your home machine.

Specify Size when ordering. Available in Pink or Purple

Breast Sling for Echocardiography, Disposable

Cardiac sonographers are particularly at risk for work related musculoskeletal disorders of the hands and wrists. This disposable device is designed for use during echocardiography exams to support the left breast of patients with large, pendulous breasts. Suspending the breast allows better access to the acoustic window, improving image quality and alleviating the weight of the breast from the sonographer's hand and wrist. Use of the Breast Sling can help reduce the stress on the sonographer's scanning hand, reducing the exposure to the risk factors associated with this task. Disposable, single use only.

25 per case

* Patent pending

Model	Description	Price
BS-3000	Breast Sling	\$219.10 cs.

MagnaWand™ Cleaning Wand

A non-magnetic tool designed specifically to clean and disinfect MRI and CAT scan machines. Finally, hospitals will be able to easily clean between patients without losing valuable scanning time. The cleaning wand reaches inside the MRI magnet bore or CAT scan gantry to clean and disinfect those difficult to reach places in seconds.

Introducing our new wand hook.

Our **Wand hook**, is designed to hold our MagnaWand, it is self adhesive and can be mounted on the MRI magnet, or on the side of a counter, next to our Acrylic dispenser.

Introducing our new MagnaWand Acrylic Dispenser.

The MagnaWand **Acrylic disposable dispenser** is self adhesive, can be mounted or stand alone atop a counter. Easily dispenses one disposable at a time.

Comes with 30 disposables.

**Disinfectant cleaner protects against:
 MRSA, S.aures, and more**
